Between 5 and 6 o'clock last evening as a Rapid Transit car came up from the south at the corner of Tenth South and Tenth East, several people were waiting for its arrival. For some reason the car carried a long plank on the front end which projected far into the street. A workman was in the car, and as it came to a stop, the plank struck a woman who was standing in the street. Several ladies barely missed a similar fate. The crew of the car thought the whole matter was a huge joke and hilariously enjoyed the commotion they created, but the passengers were highly indignant.

Judge Le Grande Young and wife and Miss Jamline have returned home from a visit to New York city. Judge Young

when seen today, said that the trip had been an enjoyable one and that he had seen a number of Salt Lake whites in New York. He said that the report about John W. Young, that he had made a fortune, had been published altogether too soon, for while that gentleman is working on a great proposition and has completed the preliminary work, it will be some time before anything can come of it. In the meantime not even he himself can estimate what will be made on the deal. Judge Young says that the panic on Wall street has affected business in all its branches, and that while everyone is expecting a speedy recovery to a more settled condition and steady market, it will be some time before confidence is restored.

In reply to a query submitted by State Food and Dairy Commissioner Hines the attorney general states that any person who offers for sale lard made of cotton seed or other ingredients other than the fat of hogs, which is labeled pure lard, or represented as lard made from the fat of hogs, is committing a fraud and is liable to prosecution, and it would be the duty of the commissioner to prosecute such offenders.

WHITAKER COURT ALARMED. People Complain of Violations of Smallpox Quarantine Regulations.

The people in Whitaker's court have become very much concerned over their safety since the death of Albert Harding with hemorrhagic smallpox. The reason for their uneasiness they ascribe to the alleged lax manner in which the quarantine regulations have been observed by the Harding family who live in the court.

The ones who seem to be more wrought up over the condition than any others are Mr. Shader and Mr. Linnen, neighbors of the Harding family. They say that a daughter of the family has had the smallpox for three weeks, and during that period the father and brother were passing in and out of the house and conversing with the girl and her mother, and then going back to the Metropolitan hotel to sleep. They also complain that peddlers were allowed to go in the house, and a little pet dog was permitted to go in the house and run about the neighborhood to suit itself. They say that the second son went to the office of Dr. Witche on Wednesday, and was examined and already broken out with the smallpox and held an umbrella over his head to prevent people from seeing his face.

These are some of the grievances of the neighbors who also complain that the health officers have been neglecting in their duties so far as the Whitaker court was concerned.

Dr. Witche confirms the statement that one of the Hardings came to him on Wednesday with a well defined case of hemorrhagic smallpox. He said that the health officers he knew thought whatever he has heard the complaints of the people of Whitaker court but does not think there is cause for any great alarm. The house is being fumigated and the father is at the isolation hospital.

Dr. King states that no complaint came to the health office from Whitaker court until after the death of Albert Harding. He further stated that he reported to the city board of health yesterday afternoon. The victims, who are all members of one family, are Anna Smith, aged 27; Julia G. Smith, aged 10; George Smith, aged 9; Reed Smith, aged 4, and a baby. The father is at the isolation hospital.

Four new cases have been reported from Provo, and three from Bountiful.

Want to Adopt Him.

Elwood and Henrietta Bailey have petitioned the district court to sanction their adoption of Elwood Bailey Fitzgerald, the infant son of Vena Rasmussen, by an unknown father, and who was left at the Rescue home soon after his birth. The petitioners intend to make the little boy their heir, and have him take the name of Bailey.

Petition in Probate.

Johanna Erickson filed a petition in probate this morning praying that she be appointed administratrix of the estate of Carl August Erickson, her husband, who died at Sandy, December 16, 1898, leaving \$100 in deposit in Zion's Savings bank. Friday, June 7, has been set for the hearing. The heirs are the petitioners and her three children.

Suit on Promissory Note.

Suit was commenced in the district court this morning by Frank E. McGurkin to recover from Mrs. Bella Fitzgerald and her four minor children and others \$417, alleged to be due on a promissory note executed October 24, 1898, by Mrs. Fitzgerald and her mother, Catherine Allen, now deceased. The note, it is claimed, was secured by a mortgage of property owned by Mrs. Allen, and of which an erroneous description was given; and the plaintiff now petitions the court to have the mortgage corrected, and that he have judgment against Bella Fitzgerald for \$417, and that the premises be ordered sold at a sheriff's sale to satisfy his judgment, or if the proceeds be insufficient, that he have a personal judgment against Bella Fitzgerald for the deficiency.

SPECIAL PARTY AT SALT LAKE. Given by the Red & Black Salt, May 25th. Special train leave R. G. W. Depot at 7:20 p. m. Enlarged orchestra. Tickets 50c.

M'KINLEY TO GO EAST OVER THE R. P.

Special Train Will Arrive in Ogden Sunday Evening at 6 o'clock.

MAY PUT ON EXCURSIONS.

Both the O. S. L. and R. G. W. May Inaugurate Cheap Rates for the Occasion—Details of Trip.

General Passenger Agent D. E. Burley of the Oregon Short Line this morning received a wire to the effect that the special train bearing President McKinley and party is expected to arrive in Ogden at about 6 o'clock on Sunday evening.

After a stop of about twenty minutes for car inspection and changing engines the train will go east over the Union Pacific. General Manager E. Dickinson of the Union Pacific is today in town and will stay here until Sunday, when he will escort the train over the road to Omaha.

The party leaves San Francisco at 5 o'clock tomorrow morning and no stops of any length will be made on the trip. The time is so arranged that the most picturesque stretches of scenery will be passed through in the daylight while the desert wastes in the vicinity of Humboldt will be traversed during the darkness of Saturday night.

Throughout the entire journey the greatest precautions for safety will be taken. Freight trains will be practically tied up and none will be allowed to enter the various canyons between Sacramento and Corinne for a couple of hours before the special is due. In addition the presidential party will be preceded by a pilot train, and all passenger trains will take the sidings before an hour ahead of the time that the special is due to arrive. Owing to the illness of Mrs. McKinley, the presidential train will run as silently as possible and the engine will not give any crossing signals, and only whistle in case of emergency. All signals will be given by the pilot train, which will be just ahead of the special.

Naturally there is considerable rivalry among the engineers and firemen as to who will have the honor of hauling the McKinley special. The crews have not yet been named, but it is safe to say that the steadiest and most reliable men will be chosen and the best engines selected for the honor of speeding the chief executive and the members of his cabinet across Nevada, Utah and Wyoming. The Union Pacific officials have arranged that a new compound engine will be used out of Ogden.

Superintendent J. S. Noble of the Salt Lake division of the Southern Pacific has gone to the western end of his division in order that all may be in readiness to take up the train as soon as it arrives at Wadsworth. He will accompany the train to Ogden when it starts. Part of the Wyoming division of the Union Pacific will take the train over his division, to be relieved by the superintendent of the next division in order until the train is finally delivered in Omaha.

There will be at least two doctors on the train, probably Dr. Rixey and Dr. Hirschfelder or Gibbons of San Francisco. Owing to the delicate state of the health of Mrs. McKinley, it is the wish of the president that there be no noisy demonstrations at the points where the train will stop. Firecrackers, bombs and shotgun brigades will not be tolerated, and no speeches will be in order.

It is expected that there will be a huge crowd at the depot in Ogden on Sunday evening to catch a glimpse of the President, and the local roads are already figuring on running excursions up to the Junction city for the occasion.

GREELEY SUGAR CO.

Incorporated With a Capital of Half a Million Dollars.

(Special to the "News.")

Lehi, May 24.—Mr. T. R. Cutler returned last night from Denver. He stated to the "News" correspondent that the articles of incorporation of the Greeley Sugar company were filed there on the 22nd inst. The capital stock is \$500,000 in 100 shares, fully paid. The officers of the company are as follows: Thomas R. Cutler of Utah, president; Clarence C. Granger, vice president and general manager; George H. Nagle of Cheyenne, secretary; C. S. Morey of Denver, treasurer. The board of directors consists of the following, in addition to those named above, all of whom are members of the board: L. C. Hills, John C. Cutler, G. E. Dyer, Harold Dyer, and George Austin.

It is the purpose of the company to build and operate a sugar factory at Greeley, Colorado, in time for the beet crop next year, and to facilitate matters, the foundations will be put in before the end of the present year. The contract for the machinery will be given to Messrs. E. H. Dyer & company of Cleveland, Ohio, and will call for a six hundred ton piece of the most modern construction. The first intention of the company was to incorporate for \$1,000,000, but the board deemed best to incorporate for the sum stated. The beet lands that will supply this factory are all on the line of the Union Pacific between Denver and Cheyenne, and include the celebrated potato dissection of Greeley, from which over 4,200 carloads of potatoes have been shipped last year, the market for which, owing to violent fluctuations in prices, cannot always be relied upon. The company have a guarantee of five thousand acres annually for three consecutive years after the completion of the plant.

Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain-Expeller, and am pleased to say that it has cured me."
